PREFACE

This second printed edition of the list of *United States Author Headings* appears in the *Catalog of Books Represented by Library of Congress Printed Cards* as an aid to users of this *Catalog* as well as to librarians who may use it as a filing guide. Reprints of the list may be obtained upon request from the Information and Publications Office, Library of Congress.

This list, following the form of its companion *List of Great Britain Author Headings*, which appears in Volume 58 of the *Catalog*, contains entries of three kinds, namely: headings established by the Descriptive Cataloging Division of the Library of Congress, additional headings from other libraries represented in the Union Catalog, and cross references.

The first group contains main and secondary entries appearing on typewritten as well as printed cards prepared by the Library of Congress. For this reason, attention is called to the fact that all of the headings in this list will not be found as "main entries" in the *Catalog of Books Represented by Library of Congress Printed Cards*. Furthermore, this list incorporates additions and revisions of Library of Congress headings established through June 30, 1945 whereas July 31, 1942 was the closing date for the *Catalog*.

The headings from other libraries are those used as main entries for titles sent to the Union Catalog and are identified by the standard library symbols.

The cross references in the list are intended to supplement the references on cards which appear in the *Catalog*.

The appendix contains data taken from Library of Congress "authority cards" in instances where it was felt that such information would prove helpful. Superior numbers in the text refer to entries to be found in the appendix.

Entries for certain government institutions such as U. S. NATIONAL MUSEUM, U. S. NATIONAL HERBARIUM, which are printed in bold face type on Library of Congress cards appear in this list interfiled with headings for official bodies.

So much of the labor of compiling and editing this list was performed by Miss Maud Storey and Mr. Hugo Hespen of the Union Catalog Division, under the direction of the Chief, that it is presented as a compilation prepared by the Union Catalog Division. Miss Marian A. Brooks, Head of the American and British Law and Document Section of the Descriptive Cataloging Division gave assistance in editing and revising.

It will be appreciated if errors and inconsistencies found in the list are reported to the Union Catalog Division.

George A. Schwegmann, Jr.
Chief
Union Catalog Division
